

CLAIMS

Having thus described the invention, what is desired to be protected by Letters Patent is presented in the subsequently appended claims.

What is claimed is:

1. A removable insert for the truck box with integrated motorcycle support and tie down for the purpose of which is to provide enhanced flexibility of use to the truck box with integrated motorcycle support and tie down comprising:

means for providing a cavity to receive removable inserts.,

means for retaining and supporting a wheel, as well as depicting one example of a removable insert., removably inserted to said means for providing a cavity to receive removable inserts.;

means for storage of items, as well as depicting one example of a removable insert, removably inserted to said means for providing a cavity to receive removable inserts.;

means for transporting of ice and other such items, as well as depicting one example of a removable insert, removably inserted to said means for providing a cavity to receive removable inserts.

2. The removable insert for truck box with integrated motorcycle tie down in accordance with claim 1, wherein said means for providing a cavity to receive removable inserts. comprises a cavity for removable insert.
3. The removable insert for truck box with integrated motorcycle tie down in accordance with claim 1, wherein said means for retaining and supporting a wheel, as well as depicting one typical example of a removable insert, removably inserted to said means for providing a cavity to receive removable inserts. comprises a wheel support removable insert.
4. The removable insert for truck box with integrated motorcycle tie down in accordance with claim 1, wherein said

means for storage of items, as well as depicting one typical example of a removable insert, removably inserted to said means for providing a cavity to receive removable inserts. comprises a storage cabinet with drawers removable insert.

5. The removable insert for truck box with integrated motorcycle tie down in accordance with claim 1, wherein said means for transporting ice and other such items, as well as depicting one typical example of a removable insert, removably inserted to said means for providing a cavity to receive removable inserts. comprises an ice chest removable insert.

6. A removable insert for the truck box with integrated motorcycle support and tie down for the purpose of which is to provide enhanced flexibility of use to the truck box with integrated motorcycle support and tie down comprising:

a cavity for removable insert, for providing a cavity to receive removable inserts.;

a wheel support removable insert, for retaining and supporting a wheel, as well as depicting one typical example

of a removable insert, removably inserted to said means for providing a cavity to receive removable inserts.

a storage cabinet with drawers removable insert, for storage of items, as well as depicting one typical example of a removable insert, removably inserted to said means for providing a cavity to receive removable inserts.

an ice chest removable insert, for transporting ice and other such items, as well as depicting one typical example of a removable insert, removably inserted to said means for providing a cavity to receive removable inserts.

7. The removable insert for the truck box with integrated motorcycle support and tie down as recited in claim 6, further comprising:

a reconfigured lid, for covering the truck box body opening and for securing into place a removable insert., removably retained to said removable insert.

8. The removable insert for the truck box with integrated motorcycle support and tie down as recited in claim 6, further comprising:

a lid, for providing clarity and illustrate a lid.

9. The removable insert for the truck box with integrated motorcycle support and tie down as recited in claim 6, further comprising:

a box body, for providing clarity and illustrate a box body, hingeably connected to said lid., hingeably connected to said reconfigured lid, and rigidly connected to said cavity for removable insert.

10. The removable insert for the truck box with integrated motorcycle support and tie down as recited in claim 6, further comprising:

a box lid latch, for providing clarity and illustrate a box lid latch., lockably connected to said box body, rigidly attached to said lid, and rigidly attached to said reconfigured lid.

11. The removable insert for the truck box with integrated motorcycle support and tie down as recited in claim 6, further comprising:

a truck box with integrated motorcycle support and tie down, for providing clarity and illustrate a truck box with integrated motorcycle support and tie down., rigidly encompassing to said box body, and rigidly encompassing to said cavity for removable insert.

12. The removable insert for the truck box with integrated motorcycle support and tie down as recited in claim 6, further comprising:

an integrated motorcycle support, for providing clarity and illustrate an integrated motorcycle support., rigidly encompassed to said truck box with integrated motorcycle support and tie down, and rigidly connected to said box body.

13. A removable insert for the truck box with integrated motorcycle support and tie down for the purpose of which is

to provide enhanced flexibility of use to the truck box with integrated motorcycle support and tie down comprising:

a cavity for removable insert, for providing a cavity to receive removable inserts.,

a wheel support removable insert, for retaining and supporting a wheel, as well as depicting one typical example of a removable insert, removably inserted to said cavity for removable inserts.,

a storage cabinet with drawers removable insert, for storage of items, as well as depicting one typical example of a removable insert, removably inserted to said cavity for removable inserts.,

an ice chest removable insert, for transporting ice and other such items, as well as depicting one typical example of a removable insert, removably inserted to said cavity for removable inserts.,

a reconfigured lid, for covering the truck box body opening and for securing into place a removable insert., removably retained to said removable insert.,

a lid, for providing clarity and illustrate a lid.,

a box body, for providing clarity and illustrate a box body, hingeably connected to said lid., hingeably connected to said reconfigured lid, and rigidly connected to said cavity for removable insert.,

a box lid latch, for providing clarity and illustrate a box lid latch., lockably connected to said box body, rigidly attached to said lid, and rigidly attached to said reconfigured lid.

a truck box with integrated motorcycle support and tie down, for providing clarity and illustrate a truck box with integrated motorcycle support and tie down., rigidly encompassing to said box body, and rigidly encompassing to said cavity for removable insert.,

an integrated motorcycle support, for providing clarity and illustrate an integrated motorcycle support., rigidly

encompassed to said truck box with integrated motorcycle support and tie down, and rigidly connected to said box body.
